Mason Lowny has been jailed at Flemingsburg in default of \$1,500 bail. He is charged with being an accessory with Bud Lowny in the recent killing of Walker at Nepton. Bud Lowry is still at large. From present indications Greenup will be one of the best counties of North-ceatern Kentucky that will make a rapid advance this year.

During the past six months more than 20,000 acres of land along the line of the Eastern Kentucky Ralirond between Greenup and Willard have been purchased by prospective tobacco raisers, who will the coming season give the work their active attention. Of this land 7,000 acres is owned by a syndicate of Maysville capitalists who last season made a successful test of the business.

To a man, shopping is a nuisance vexa-titious, tiring to his patience, and actually failguing to his muscles and nerves. It is often no less so to a woman. On Friday the 16th "The Tramp" wrote the following local as an item of

It is not the idea or principle of this paper to run down any institution, person or thing, and Mr. Robinson knew full will write the above article, and further knew that the writer was not in the congregation when he got up in the pulpit and denounced him.

At all times har Tur Linders willingly published notices concerning this protracted meeting, and it cannot be denied that the press of the close much

to make the meeting the success it has been.

The item referred to was written upon information secured from two of the most active members of the church, and Mr. Robinson himself told the writer early in last week that it was the intention to close the meeting last Saturday night. And it was only after the meeting had revived some in interest that he concluded to hold it over.

When he called at this office and spoke of the mistake it was gladly corrected in the next issue. But this did not suit the young Pastor. No, indeed. He wanted to write a card in The Butters, and then not being satisfact went so far as to get up in the pulpit of his own church and illustrate the fact in both word and deed of his ill feeling towards the writer.

there, Br'er MARSH: GROW's najority in Pennsylvania "grows." has now run up to 185,000. But, then, it would not "surprise" you if it should go to 1,000,000.

GALUSHA A. GROW will return to Con gress from Pennsylvania after a retire ment of thirty years, backed by the largest Republican plurality ever given in Pennsylvania.

THE Wilson Bill is like the ordinan of secession. A gang of unscrupulous politicians have determined to strike a blow at those they hate, no matter what sequences to the country.

LABORING men who voted the Deme eratic ticket, but who have now espoused Republicanism, are accused of being turneoats. The trouble with a large number of these victims of misplaced confidence is they have no coat to turn

In Pennsylvania the Republicans made almost a clean sweep of the counties, only eleven of the sixty-seven counties giving a plurality for HANCOCK, Democrat. In 1892 twenty-eight coun-tles gave pluralities for the Democratic candidate for Congressman-at-latge. In 1892 the politicians and plehunters wanted a change. In 1894 it is the idle workingmen who want a change.

In 1892, says The Times-Star, Penn sylvania gave Harrison a plurality of 63,747. Last fall the people having taken a second thought gave the Republican State Treasurer a plurality of 135,-146. This week, having studied the matter over still more carefully, they gave Grow a plurality of about 170,000. In the meantime the 452,264 votes cast for CLEVELAND have dwindled to about two thirds that number cast for HANCOCK.
Did 200,000 Pennsylvania Democrats vote for GROW, or were they absent in Washington soliciting pie?

It is encouraging to record the facthat the Kentucky Legislature is in favor of Protection. The House, without senting vote, has passed the "Bowden Bill," so called because it was drafted by the President of the Louisville Comreial Club. The bill is for the pro tection of regular merchants and imposes a tax upon peddlers. Now, isn't it just a little bit inconsistent in Democrats to enact laws keeping American peddlers out of Kentucky city, when they are in favor of Free-trade which opens the whole United States to European ped-

Is THE Democratic party redeeming its ledges? The Sherman Law has been re-ealed, the odious Federal Election Law pealed, the odious Federal Election Law has been wiped from the statute books and the Wilson low Tariff Bill has passed the Honse, with good prospects in the Senate.
